

class test

The Media

- 1.1) The text "Working with the media" is about young people around 14 – 25 years that have no media skills that help her to produce media but the organization "Media Trust" will help those people to develop those skills they need to produce media. The "Media Trust" has various projects where the people can contribute when they are thosen.
- 1.2) When the people, witch are about 18-25 years old, are thosen they will learn how to create artikles for TV-shows and online magazine, witch are about the local stories, whitch are untold in the public. The Article will be publisht on half-an-hour TV-show on the "Community Channnel TV" and on the online magazine.
- 1.3) The competition is about 9 places in a project, witch has the name "Breaking into News", where 9 people, witch age is from 16-25 years and are from 9 different region, can create article for the local partner ITV-studios and one of the artikles will be publish on a TV-show but the artikle, witch will be sown, will be made with the newest high-tech equipment.
- 2.) In the cartoon from Jon Carter are 3 people, witch are talking to eatch other. I think the people, that are sitting on the sofa, are the childrens of the Man, that's are standing on the left. The one of the sitting children is a boy and the other is a girl and both have a tablet in the hands. The dad has a smartphone in his right hand and I think they are in the living room because of the picture in

the background and the sofa. The man talk to the kids what in the speechbauble are written: "WE'VE BEEN SPENDING TOO MUCH TIME APART ON OUR MOBILE DEVICES, AND WE NEED SOME TOGETHER TIME. EVERYBODY LOG ON THE FAMILY SOCIAL MEDIA PAGE.". I think Jon Carter will say us we spend to much time on our devices, that we will spend to poorly time with our family or friends. I think that's is now a day vary agreeeeble because we spend very often hours or day on our devices that can't be healthy.

- 3.) I think the cartoon is on point because we spend all day on our devices in the work and free time, that we can hurt our body, mostly our eyes because of the bluelight that are send by the screens that we developt special glass lenses that can filter a litte bit those wavelegth out or special glasses that only porpise to filter the waveleth out.
