

botten cartoon:

The cartoon from Lynch, from 2016 on de.toonpool.com/cartoons/Supermodel_265654/ is about eating disorder. The cartoon is placed in a café because it says it on the sign on the left side of the background of cartoon. There two black masked people under the sign. In the Forgront in the centere left there is a café-table where to women are sitting and they hold in there hand a menucard of the card. Behind he table there is a bartender witch is waiting for a order. The women that is sittig on the left side of the table is questioning the bartender: "DO YOU HAVE ANYTHING THAT'S NOT FOOD?". I think the cartoonist is tring to say that now a days the women trys all they can do to not eat because they wouldn't get any wheigt because now a days there is a image of a women in the world, that the women must be very curvy but slimm as possible. I don't think that women can be as they would be like they will to be.
